ACCREDITATION MATTERS

Keller's MBA program has achieved voluntary accreditation from the Accreditation Council for Business Schools and Programs (ACBSP, www.acbsp.org), demonstrating that it has met the standards of business education that promote teaching excellence.

MASTER'S ADVANTAGE

If you've earned an undergraduate degree in Business, Technology or a degree with a technology specialization you may be eligible to waive up to three courses (or nine credit hours). We call this our Master's Advantage. With these course waivers¹, you can earn your graduate degree with fewer courses, allowing you to put master's degree to work for you even sooner.

FLEXIBILITY TO FIT YOUR LIFE

Whether you're balancing a job, family duties, or both on top of your studies, Keller's flexible learning options allow you to tailor your experience to fit your life – and your professional goals. Study 100% online or take classes at one of our campus locations with our hybrid format. Classes start every 8 weeks, so you can advance your education when and where it makes sense for you.

TWO-IN-ONE

Keller offers a unique 2-in-1 design that allows our Accounting Graduate Certificate to be embedded within our MBA with a concentration in Accounting, giving you the chance to earn your certificate on the way to your Master's Degree.²

¹Eligibility and application of course waivers varies based on the type of course waiver credit earned, the student's enrolled location and/or the student's state of residence. For more information, please refer to the Course Waiver section of the Keller academic catalog.

²For the Accounting certificate program, every course counts towards the MBA with a Concentration in Accounting program. At the time of application to the next credential level, an evaluation of qualifying transfer credit will occur and the most beneficial outcome will be applied.

Credits and degrees earned from this institution do not automatically qualify the holder to participate in professional licensing exams to practice certain professions. Persons interested in practicing a regulated profession must contact the appropriate state regulatory agency for their field of interest. For instance, typically 150 credit hours or education are required to meet state regulatory agency education requirements for CPA licensure. Coursework may qualify for credit towards the State Board of Accountancy requirements. However, it is the student's responsibility to contact the state board of accountancy for the jurisdiction in which they are applying to determine whether they have completed the appropriate credit hours and coursework to qualify to take the CPA exam. Employees of DeVry University and its Keller Graduate School of Management are not in a position to determine an individual's eligibility to take the CPA exam or satisfy licensing. New York students should contact the NYSED Office of Professions regarding professional licensure.
