

## Transfer Credits from Microsoft Software and Systems Academy

Effective from July 15, 2025 to June 1, 2030

DeVry University has developed this Transfer Guide to assist students from Microsoft Software and Systems Academy (MSSA). This guide doesn't represent all courses required for DeVry programs; rather, it provides a list of course equivalencies between MSSA and DeVry. For a complete list of course requirements in each DeVry program, please see the [Academic Catalog](#).

This guide is based on a review of MSSA programs by DeVry as of 7/15/25 and is subject to review and modification at any time and without prior notice. Limitations and restrictions may apply.

### Process

Applicants seeking to transfer credit must:

1. Request a formal credit evaluation prior to beginning their first class at DeVry University; and
2. Provide to DeVry an official transcript from the institution where the credit was earned.

Please contact a DeVry University admissions representative to request a transfer credit evaluation. Transfer credit is considered on an individual basis and awarded upon receipt of an official transcript only.

### Limitations and Restrictions

Admission and credit applicability are subject but not limited to DeVry University's admission requirements, program requirements and academic policies, including – but not limited to – the prior learning credit policy. Additional state-specific requirements for credit acceptance may apply.

Note:

- Proficiency credit is granted for workforce training.
- Course equivalencies vary based on program.
- Curriculum changes at either institution may affect transferability and applicability of certain credits. A time limit may be imposed on the ability to transfer credits for some courses, especially courses in technical or evolving areas.
